Area's Young Musicians In European Performance

Eight Young Albany and El Cerrito musicians will be with the Young People's Symphony Orchestra of the East Bay when that organization travels to Aberdeen, Scotland this week to represent the United States at the International Festival of Youth Orchestras. The young people are Geoff Chin, Sue Gershenson, Jean Lyon, Rita Kingsley, Fritz Loura, Ross Gershenson, and Bob Onweller, all of Albany, and El Cerrito residents David Kell and Lewis Kaplan. Traveling with the Orchestra will be Ernest Douglas, music director at Albany High School and Associate Conductor of Young People's Symphony.

Ten youth Orchestras from Europe, Canada, the U.S., South Africa, Hong Kong and Japan will perform at the festival. In addition, there will be opera groups from Australia and Japan, and dance ensembles from Canada and Texas. At the conclusion of the festival all the participants will travel to London, where the best players from each orchestra will be chosen to form an International Orchestra. On August 19th, a concert by the International Orchestra will be presented at Royal Albert Hall in London, under the direction of Janos Ferencek and Leopold Stokowski.

The Young People's Symphony Orchestra is one of the oldest youth orchestras in the United States, having been in continuous existence since 1936. It is completely free, with no membership charge of any kind. Operating funds come largely from private donations.

Two concerts will be presented by the Orchestra in Scotland, one at the Festival in Aberdeen and one in the small community of Elgin. Both concerts will be conducted by Yair Strauss and Ernest Douglas.

A total of $32,000 has been raised so far by private donations, auctions, and concerts, and as a result of a public telecast in June over Oakland's Channel 2. In spite of this, one thousand dollars is still needed to enable the Orchestra to break even. Tax-exempt donations may be sent to Y.P.S.O. Scotland, P.O. Box 1296, Berkeley, Ca. 94701.

Sonotone Offers Hearing-Aid Help

For some time now, it has been possible for a person with a hearing loss to receive help by hearing aid fitting requiring no earmold. According to Keith Tanner of Sonotone of Berkeley, the Authorized Sonotone Dealer for this area, one method for doing this is the IROS (Ipsilateral Routing of Signals) fitting. This is where the hearing aid microphone is located o nthe same side as a nopen earmold or no earmold.

"A Roto-Coustic input system, featured in the Model 36 IROS just released by Sonotone Corporation, broadens the fitting range for these no-earmold IROS fittings," says Mr. Tanner. "This innovation was designed specifically to provide maximum hearing benefits from the IROS fitting where just a tiny tube leads from the hearing aid to the ear canal."

Up until now IROS fittings had limited application because they had to be operated at low gain. Sonotone's Roto-Coustic microphone significantly reduces feedback which very often causes problems with no earmold or open earmold hearing aid fittings. Since the Sonotone Model 36 IROS can be used at a higher gain before encountering feedback, many persons who previously could not be helped by an IROS fitting may now be helped." "An audiometric evaluation can determine if the IROS fitting is best suited to a person's needs, or if another model, such as the Model 36 with AVC (Automatic Volume Control), is more appropriate."

This new hearing aid development is now available throughout the country and can be seen locally at Sontone of Berkeley, which is located at 1705 Solano Avenue. Mr. Tanner invites residents of this area to have an audiometric evaluation, no obligation, to see if an IROS fitting would be helpful to them.

Wild Animals Carry Rabies

Californians are again being warned about rabies, and a renewal of current protective advice has been issued by the State Dept. of Health, as the result of the recent rabies situation with two Marin County horses.

Vacation-bound residents are being alerted that wild animals acting unusually "tame" should be vviewed with suspicion, as they may be infected with rabies. Rule one is: "Do not pick them up, touch them or encourage them to come close."

"High risk" wild animals, such as skunks, bats and foxes, should be captured or killed if they have bitten anyone, and must be examined by a local health department laboratory for presence of rabies. The bite, in any case, should be washed immediately, and a physician summoned. The local health department should also be notified immediately in case of any bite by any wild or domestic animal.

Although such species as gophers, mice, hamsters, ground squirrels, rats, rabbits, guinea pigs, muskrats and moles have never been found to transmit rabies in California, they can and do carry tetanus, salmonella, tularemia and other infections, which are reasons enough to keep them at a distance.

However, snakes, lizards and other small insects, according to the State Health Dept., never have rabies.

The Berkeley City Health Dept. has reported that skunks are migrating to the nearby residential areas of Berkeley Hills, and a great number of calls have been received within the past few weeks, reporting observations of skunks in nearby residential neighborhood areas during the daytime.

Rabies is detected in skunks more requently than in any other animal species, and Alameda County has been defined by the State as a "rabies-endemic area."

Preventive steps to be taken, along with keeping children away from skunks and any other wild animals, include: 1. Do not allow your dog to run loose; 2. Be sure your dog has a current rabies vaccination; 3. Keep your garage doors closed, and 4. Screen or close all openings leading under your house.

For further information, or to report a skunk in your neighborhood, please call the Berkeley Health Dept., 644-6510 or the Albany Health Dept., 526-6116.

A SPECIAL retirement badge was presented to Officer Bernard Johnson (left), who recently retired from the Albany Police Department after 27 years of service. Making the presentation at Johnson's retirement dinner was Albany Chief of Police, Ralph Jensen, who is also retiring. Among the letters of congratulation and commendation received by Officer Johnson was one from vice-president Spiro Agnew, who wished "Johnnie" and his wife, Bernice, "All the peace and happiness you so richly deserve." —Luoma Photo

Jerome Blank Realty Opens New Solano Avenue Offices

What do you do when you've had a successful real estate business in a well-known location for almost 25 years, but desire a new building on the same site? Jerome Blank, Albany Realtor, solved that problem by demolishing his old office building, selling ½ of his lot to the Albany Branch of the Bank of America for expansion of their parking lot, and then building a new 3-story office building, on the remaining parcel, at 1530 Solano Avenue, Albany. He celebrated its completion by moving his firm into the top floor offices last week after having operated his business in his Town Centre Business Park during the construction period. With over 1500 square feet of office space, his office will give him the additional space needed for his growing investment and development business, as well as a balcony overlooking a panoramic San Francisco Bay view. He leased his main floor to Founders Title Company, and on the Bank lot level, his occupant is an engineering firm, Global Consruction, Inc. The building was designed by John M. Hogg, Albany architect who had also previously designed several apartment houses and office buildings for Blank. It was built by Gerard Fisher, General Contractor.

Blank, a lifelong resident of Albany, and graduate of Albany schools, obtained his Mining Engineering degree from the University of California, and then went into the U. S. Navy, finishing his 4½ years World War II Service as a Lieutenant-Commander. He then started his Real Estate business in 1957, and his name has almost become synonymous with real estate in Albany since that time. He had held several of the highest positions in the Real Estate industry including being President of the Berkeley Board of Realtors, Vice-President of the California Real Estate Association, and this year, the President of the Berkeley Multiple Listing Service. He has been an instructor of Real Estate at the University of California Extension Division in Exchanges and Taxation, and has served as a member of the California Real Estate Association educational faculty for over 17 years. In addition to his Real Estate career, Blank served 10 years as a member of the Albany City Council, and three years as Mayor. In 1967, Supervisor Kent Pursel appointed Blank to be a member and chairman of the newly authorized Alameda County Board of Assessments Appeals, where he served for two years, hearing appeals on property assessments throughout the County.

Blank assembled the land and assisted in the development of the Albany Safeway Store, the Town Centre Business Park, the Solano 7/11 Center and has handled acquisition of land for the Plaza Professional Building, and many of Albany's leading business firms.

In addition, he has developed many of Albany's largest apartment houses.

His staff includes Dennis R. Williams, Sales Manager, with the firm since 1956; Doris M. Chambers, Executive Secretary, since 1953; Helen M. Howward, Accountant, since 1972; and Jacqueline Armstrong.

In addition, the firm was the first Company in this area to join in the Real Estate Interne Program sponsored by the Real Estate Association in cooperation with the Department of Real Estate. David E. Kerr, of 947 Ninth Street, Albany, a 1973 Civil Engineering graduate of the University of California, will work with Jerome Blank Realty this summer in management and development, before he completes his Master's degree in Engineering and Real Estate.

Blank lives at 1015 Ramona Avenue, Albany, with his wife, Muriel and his daughters, Marcia and Deborah.

His future plans call for more apartment and commercial developments in this area. While primarily concentrating on investment properties, his firm still handles the residential needs of the many clients who have purchased homes from his firm throughout the last 26 years.

Kids Planning Benefit Events

A Neighborhood Carnival Against Dystrophy will be held Saturday, August 4 at the Cornell School Playground, under the direction of Jon and Anne Marie Elliott, children of Mr. and Mrs. Robert B. Elliott of Albany. They will be assisted by Patrick Ridge and Kathy Sieh.

Their carnival will begin at 11 a.m., and those attending will be invited to play such games as penny-pitch, pinball, marble roll and Canadian Woodsman, to win prizes donated by local merchants.

A second area Neighborhood Carnival Against Dystrophy is being planned by John T. Moon, Jr., of El Cerrito, son of former Albany residents Alanna and John Moon, to be held at the Moon residence, 552 Norvell St., on Sunday, August 5, beginning at 10 a.m.

John, Jr. will act as ringmaster, and will be assisted by his mother and dad, along with Roger Gordon, Lynn Moon, Marc Wendt and Michael Mora.

The children got the idea for the Carnival while watching one of their favorite TV personalities, Pat McCormick, who is promoting these carnivals on Channel 2's "Charlie and Humphrey" Show.

All proceeds will go to aid the fight against muscular dystrophy and related diseases, which afflict millions of children and adults each year.

Last year, in cooperation with the Muscular Dystrophyy Association of America, more than 39,543 Neighborhood Carnivals were held by children across the country, with over $1,172,661 raised for MDAA's research and patient service program.

For further information please call John Moon at 525-8548 or the Elliott children at 526-0202.

Council Holds Over Clark Decision Another 2 Weeks

The Albany City Council reopened the public hearing Monday night, concerning the application of Mrs. Gloria Clark to divide a lot between 808 Cerrito Street and 860 Washington Ave., in order to construct a single family residence, and after more than an hour's discussion on the subject, much of it from the audience, voted to close the hearing, but hold over making a decision on the matter for another two weeks.

During the course of Monday night's hearing, petitions and letters containing almost 60 signatures of nearby residents who objected to the granting of the variance were read.

Prime concern of the objectors was building on what was termed an "illegal lot," density, building heighth, parking congestion, and loss of privacy.

Steve Reynolds, speaking for Laura Rudd of 812 Cerrito, showed pictorial exhibits of how the building would tower over neighboring structures and infringe on the privacy of those on Cerrito Street.

Aaron Underkofler, the Clark's neighbor at 858 Washington, questioned at length proposed buildings dimensions, gutters and roof structure as well as the already congested parking situation in the neighborhood.

A majority of those speaking and writing also touched on the congestion due to on-street parking, and during the discussion it was learned that many of the garages in the area were built 30 years or more ago, and cannot house today's automobiles without considerable remodeling.

The Council voted to hold over making a decision for two weeks, to give the City Engineer and the Chief of Police time to inspect the area and report back on the traffic and parking congestion situation with possible suggestions on how it can be relieved.

In other action at Monday night's meeting, Council members approved City Administrative Office Jim Turner's recommendation, for readvertising for bids for new fence and overlay stucco work at the Albany Preschool Center; instructed City Attorney Larry Saler to prepare a resolution proclaiming August 30 as "All-Star Football Classic Day;" and approved the appointments of Albany Police Officer John Megonnigil to the rank of Probationary Sergeant, and Joseph Leggett as Probationary Patrolman, effective August 3.

The Council also approved changing the date of Policewoman Judy Frakes from July 31 to October 31, primarily due to the fact that there is no eligibility list for policewomen available at present and her resignation would create a hardship within the department at this time.

A public hearing date of September 10 was set to hear and act upon the recommendation of the Albany Planning Commission regarding the Open Space Element.

The City Atorney was also instructed to prepare a "resolution of intent," indicating the City's plans to rezone the block on Marin, between Evelyn and Talbot, R-16P, professional zoning. The 200 foot wide by 100 foot deep parcel of land, on the north side of Marin is adjacent to the Albany Hospital, and at some future time could possibly be considered for professional office buildings for doctors, etc. in the Council's estimation.

At the close of the meeting, Councilman Joe Carlevaro called attention to the fact that Council members would be holding a work session with the Albany School Board tonight (Wed., Aug. 1) to consider the course of action to be pursued by both the School District and the City, with respect to the Middle School site and recreation facilities.

Now kids can look it up in their own Funk & Wagnalls.

After 60 years of making encyclopedias for adults, Funk & Wagnalls has learned enough to make one for children.

It's called the Young Students Encyclopedia. And it's designed to do something more than just get them through the next homework assignment—to make them *want* to learn on their own.

Instead of burdening your children with tons of forgettable detail, it appeals to their native curiosity. The article on *Airplanes*, for example, illustrates an experiment children can perform at home showing how things fly. There are hundreds of other drawings, games and puzzles that not only teach but provoke, involve and entertain in the process.

In other words, it's an encyclopedia children will actually use. They'll also use it a long time. It's designed to be simple enough for children just learning to read and comprehensive enough to serve until they're ready for an adult encyclopedia. They can't outgrow it the way they do shoes.

Which brings up another nice point about the Young Students Encyclopedia: it's intended exclusively to help children, but it helps grown-ups too.

First, it doesn't put much of a dent in your budget. Since it's sold direct to you through us, you can buy the complete 20-volume set a volume or two a week for only $1.69 each. And the first volume for the introductory price of a quarter.

Archie was one of the co-chairmen for the "Johnnie" Johnson Retirement Dinner, and left on vacation the day before the dinner—without signing the checks to pay the bills, etc. Consequently, the balance of the committee couldn't present Johnnie with his "going-away" gift — because Archie went away . . . And Johnnie can't thank his generous friends for their donations 'cause he doesn't know who they are, as yet.

However, with a little bit of patience, Archie will return (we hope) and everything will be accounted for, and thanks will be on the way from Johnnie and Bernice.

Home seamstresses are eagerly looking forward to visiting the area's new fabric and trim shop "Poppy's" located at 1845 Solano Avenue, and owned and operated by Sue and Paul Eisenberg

The shop, which opens today, features a wide variety of materials and patterns (only first quality materials and carefully chosen current patterns), along with handcrafted ceramic, leather and wooden buttons, as well as thread, ribbons and other important and necessary sewing accessories.

This is the second shop to be opened by the enterprising Eisenbergs, who also own "Poppy's" on Telegraph Avenue in Berkeley.

Sorry, we goofed when we said the Andersons, Al and Doris, had graciously offered to launder our Albany flags at their Virginia Cleaners—it's the Hopkin's Launderette theyy own, not Virginia Cleaners. Sorry about that. The Andersons are also the folks who bought the first flag to fly over Albany, in honor of Mrs. Anderson's son, Ray Clarke.

* * *

Albany has lost another of its citizens, with the passing of longtime resident, Judith Cabral.

"Judy" always took a very keen interest in her city and her family, and was never too busy to help out when asked at community, PTA or other functions, and was always in the stands for the Little League games when her son participated.

She will long be remembered by her many friends.

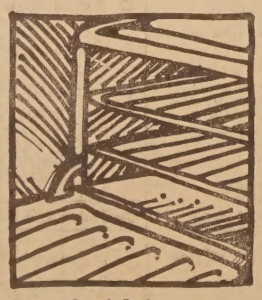
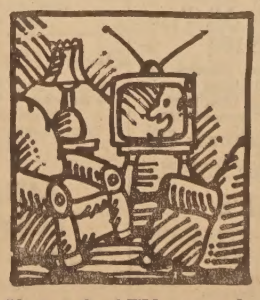
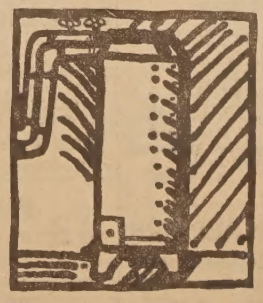
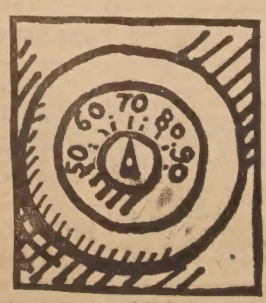
WANTED FOR ROBBERY
Find these fuel wasters. By conserving energy you'll collect your reward in lower bills.


Oven that's left on.
Turn it off as soon as you're through cooking. Don't pre-heat it for broiling or for foods that cook more than an hour. Never use it to heat the kitchen (it's a mis-use of the range).


Unwatched TV sets and unneeded lights.
These culprits waste a lot of electricity if you leave them turned on when no one's around.


Water that's too hot.
A water heater setting of 140° (or normal) is adequate. Unless you have a dishwasher. Then use 150° (or slightly above normal). Turn control to "pilot" when you're on vacation.


Heat set too high.
Turn down your house heat at night and when you're away.
